

REMARKS

Claims 1, 2, 7, 12, and 14 have been amended. Applicant requests that the cotton cultivar experimental designation of 00W12 be changed to the commercial name of DP 393. These amendments are not intended to narrow the scope of these claims. It is believed that none of these amendments constitute new matter.

Applicant requests to provide a substitute specification under 37 C.F.R. §1.125 due to the number of modifications.

Attached hereto are a marked-up version of the changes made to the specification by the current amendment (captioned "Version with markings to show changes") and a clean version of the specification (captioned "Clean version of substitute specification").

In view of the above amendments and remarks, Applicant respectfully requests examination and early notice of allowance.
